# SADANAND MAURYA

**Full Stack Developer | React, Next.js, Node.js & Laravel | Flutter Mobile Apps**

Varanasi, Uttar Pradesh, India | +91 90444 64627 | sadanandmaurya.rj@gmail.com

LinkedIn: linkedin.com/in/sadanand-maurya-438682355 | GitHub: github.com/SadanandMaurya1622 | Portfolio: sadanand-maurya-portfolio-i1zc.vercel.app

## PROFESSIONAL SUMMARY

Full Stack Developer with 2+ years of experience building and shipping complete products, from database design and REST APIs to responsive web front-ends and cross-platform mobile apps. Works across React / Next.js, Node.js, Laravel (PHP), MySQL / PostgreSQL and Flutter, and handles the full delivery cycle: development, authentication, payment integration, deployment, Play Store publishing and post-release support. Has also delivered freelance business websites and apps for clients and is building an independent product, MyDigi.

## TECHNICAL SKILLS

**Frontend:** React.js, Next.js, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Bootstrap, responsive UI, SEO optimisation, performance tuning

**Backend:** Node.js, Laravel / PHP, Python (Flask), REST API design, JWT, Laravel Sanctum, role-based authentication

**Mobile:** Flutter, Dart, Riverpod, Clean Architecture, Google Play publishing; React Native (learning / personal projects)

**Databases:** MySQL, PostgreSQL, SQLite, Firebase Firestore

**Services & Integrations:** Firebase (Auth, Firestore, Cloud Messaging), payment gateway integration, push notifications

**Tools & DevOps:** Git, GitHub, Postman, Vercel, Linux, Docker (basics), domain & hosting setup, Agile collaboration

## PROFESSIONAL EXPERIENCE

**Tryeno Software Development — India**

*Full Stack Software Engineer | Full Time | Aug 2023 – Present*

- Build full stack products end to end: React / Next.js front-ends, Laravel and Node.js backend APIs, and MySQL / PostgreSQL database schemas.
- Develop responsive web applications with reusable component architecture, SEO-friendly structure and performance tuning.
- Ship Flutter apps for Android and iOS with Riverpod state management, release builds and Google Play publishing.
- Integrate REST APIs, Firebase Authentication, Push Notifications and payment gateways across merchant and customer platforms.
- Own production deployment, testing, debugging and post-release issue resolution.

## FREELANCE & PRODUCT PROJECTS

**KP Industries — Corporate Website** | kpind.co.in

- Built the website for an ISO-certified manufacturer of castor wheels, moulded rubber parts, silicone extrusions and engineering plastics.
- Designed a responsive, SEO-optimised product and company presentation; handled development, hosting and deployment.

**Siddhivinayak Recovery Agency — Business Website** | siddhivinayakrecovery.com

- Developed the website for a debt-recovery agency serving banks, NBFCs and financial institutions across India.
- Implemented a professional responsive UI with SEO metadata and social-sharing tags for search visibility; handled deployment.

**Parva — Lorry Management App** | *Client project (mobile app)*

- Built a lorry / transport management application for a client to manage fleet operations digitally.
- Handled app development, backend API integration, testing and delivery.

**MyDigi — Own Product (Launching Soon)** | mydigi.co.in

- Founded and building a bilingual (English & Hindi) app that keeps household products, bills, warranties and expenses in one place.
- Features include bill scanning and photo storage per product, warranty status tracking (active / expiring / expired) and expense tracking for service and repairs.
- Responsible for product design, app and web development, and the public launch website.

## SELECTED COMPANY PROJECTS

- **ShopNest — Merchant & Customer Platform:** Merchant and customer apps with reservations, order management, analytics dashboards and payment gateway integration, plus APIs for order flow, merchant onboarding and transactions.
- **JHATPAT Service App (Flutter + Firebase):** Service-booking Android app built end to end, including release builds, store assets and Google Play publishing.
- **BestInCity:** Backend and merchant-facing APIs for listings, categories and merchant management, with Firebase Push Notifications and authentication.
- **Fiscora Website (React):** fiscora.co.in — Responsive, SEO-optimised marketing website with reusable components and production deployment.
- **Aadarsh Travels — Cab & Taxi Website (Next.js):** aadarshcartrevals.com — 24/7 Varanasi cab service site with fleet and rates, services, destinations, WhatsApp / call booking and an enquiry form, built SEO-friendly with hosting setup and maintenance.
- **Chess Kidz Klub:** chesskidzklub.com — Responsive website with CMS-driven content, lead forms, hosting setup and post-launch maintenance.

## ACADEMIC PROJECTS

**EduTest — Online Quiz & Exam Management System** | Python, Flask, SQLAlchemy, Bootstrap 5

Role-based exam platform with admin and student modules, server-authoritative timer with auto-save / auto-submit, automated results and leaderboard, secured with session auth and pbkdf2 hashing. github.com/SadanandMaurya1622/EduTest

**Easy 2 Work — On-Demand Home Service Platform** | Java 17, Jakarta EE, JSP, Servlets, JDBC, MySQL

Platform connecting customers with verified professionals across 8+ categories, with 3-step booking, multiple payment options, JSON APIs and separate user / admin portals.
github.com/SadanandMaurya1622/easy-2-work
